Cambridge -
March 5th 1911.

My dear Mrs. Williams:-

It was most kind of you to let me know about that Lowell, in which I am much interested, of course. There are, as you probably know, several records of the wandering of the Lowells in Colonial Massachusetts but they are not so numerous that an additional one is not of some importance. If you can let have your notes relating

to this Kittiwake bird appears in print I am sure that Dr Allen would be glad to publish them in the Auk. If you wish me to do so I will send them to him. Should you prefer to do it yourself his address is Dr. J. A. Allen, American Museum of Natural History, Central Park, New York City.

Thanking you heartily for writing to me, I am

Sincerely

Gilbert Bowdish.
